

T8 Fluorescent ProLine® and MultiVolt ProLine® Instant-Start System Limited Warranty

GE Consumer & Industrial
Lighting

GE Consumer & Industrial, Lighting ("GE") is pleased to provide the following limited warranty covering the GE T8 fluorescent lamps listed below and GE ProLine® and MultiVolt ProLine® linear fluorescent instant-start electronic ballasts purchased directly from GE.

GE warrants that the below-referenced lamps and ballasts, when operated together as a system, comply with their published specifications and are free from defects in materials and workmanship for the respective periods of time set forth below.

Lamp Remedy: If a GE T8 lamp mentioned below fails due to defects in materials or workmanship within the time periods/hours of operation indicated below, then GE will provide a credit to the direct purchaser ("Purchaser") equal to the current price GE charges Purchaser for the lamp. This warranty applies only to lamps that are operated on a burning cycle of 10 hours or more per start; operated on GE ProLine® or MultiVolt ProLine® linear fluorescent instant-start electronic ballasts that have been properly wired and installed; operated within the electrical values shown on the ballast label; and operated in lighting equipment designed and approved for the application and in environmental conditions (temperature, humidity and air movement) within the normal specified operating range of the system.

F28T8, F32T8, F32T8/WM, F25T12*	36 months after date of purchase, or 10,500 hours of operation, whichever comes first
F32T8/XL, F32T8/XL/HL and F32T8/XL/WM	36 months after date of purchase, or 12,500 hours of operation, whichever comes first
F28T8/XL, F32T8/SXL, F32T8/25W	54 months after date of purchase, or 15,750 hours of operation, whichever comes first
F96T8, F96T8/HO	24 months after date of purchase, or 8,000 hours of operation, whichever comes first
F96T8/XL, F96T8/XL/WM, F96T8/XL/WMP	36 months after date of purchase, or 10,500 hours of operation, whichever comes first

*F25T12 is only approved on GE normal light output ProLine® and MultiVolt ProLine® ballasts

Note: The above warranties also apply to the GE covRguard® (CVG) versions of the products listed above.

Ballast Remedy: If a GE ProLine® or MultiVolt ProLine® linear fluorescent instant-start electronic ballast fails due to defects in materials or workmanship within **five (5) years** after the date of manufacture, then GE will, at its option, either (1) provide a credit to Purchaser equal to the current price GE charges Purchaser for the ballast and, in GE's discretion, either retain a service provider to install the replacement ballast or pay a reasonable labor allowance that is pre-approved by GE, or (2) refund the purchase price paid to GE for the ballast. This warranty applies only to GE ProLine® and MultiVolt ProLine® ballasts that are operating the GE T8 (or F25T12) lamps referenced above; have been properly wired and installed; operated within the electrical values shown on the ballast label; and operated in lighting equipment designed and approved for the application and in environmental conditions (temperature, humidity and air movement) within the normal specified operating range of the system.

Terms & Conditions: Operation of this lamp/ballast system in frequently-switched applications (5 or more cycles per day) or in conjunction with automated controls (such as, but not limited to, occupancy sensors) will void this warranty. The foregoing lamp and ballast warranties apply only to direct purchases from GE, but do not apply to failures caused by acts of God or as a result of any abuse, misuse, abnormal use, or use in violation of any applicable standard, code or instructions for use in installations, including, but not limited to, those contained in the National Electrical Code, the Standards for Safety of Underwriters Laboratory, Inc., Standards for the International Electrotechnical Commission, Standards for the American National Standards Institute or, in Canada, the Canadian Standards Association. *GE reserves the right to examine failed lamps and/or ballasts to determine the cause of failure and patterns of usage.* The date of purchase and lamp installation date must be verified to validate the elapsed operating hours if a warranty claim is made. If lamp life is not validated, the lamp date code will be used to establish elapsed burning time based on estimated usage.

The foregoing warranties constitute the sole and exclusive remedy of the purchaser and the sole liability of GE for lamp and ballast warranties. **NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IS MADE OR IS TO BE IMPLIED.** In no event shall GE be liable for any other costs or damages including lost profits, incidental, special or consequential damages.

To Make a Warranty Claim: Retain the failed products and notify your GE sales representative within thirty (30) days of the failure. This warranty extends only to Purchaser. GE's direct purchaser. However, GE will honor, under the terms of this Limited Warranty, valid warranty claims made by Purchaser for the remedy set forth above as a result of warranty claims made to Purchaser by its customers and indirect customers.
